1.1 Descriptive summary

protocol	HTTP
URL or host	http://www.3suisses.be/fr/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

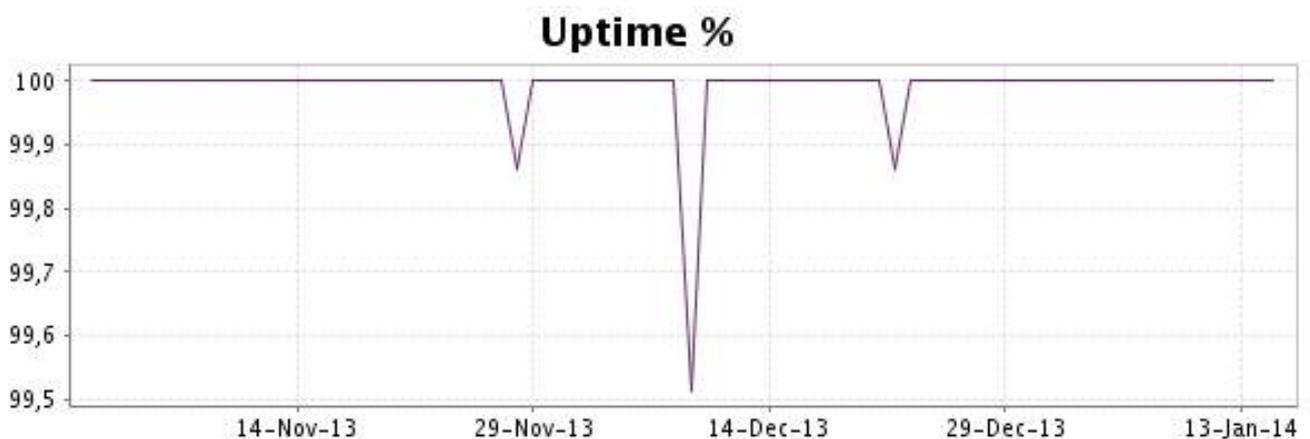

1.2 Performance report

% up	99.99%
% down	0.01%
time on error	11 minutes
time on success	75 days 23 hours 49 minutes
average response time	0.219 second
lowest response time	0 second
highest response time	34.334 seconds
number of checks	109263
number of successes	109252
number of errors	11

1.3 Availability report

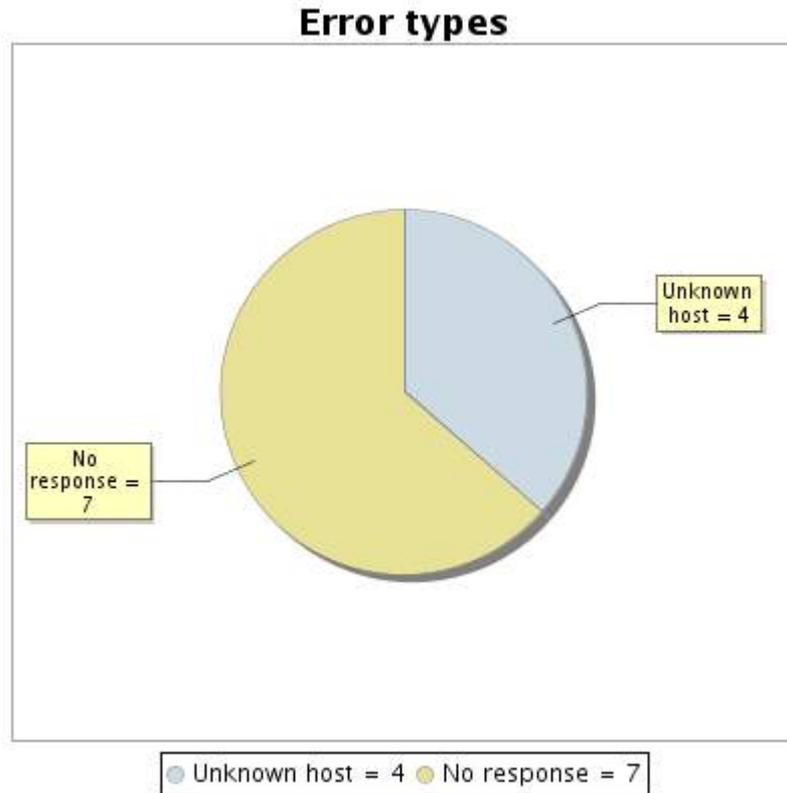

This graph summarizes the percentage of uptime for this application over the current period.

1.4 Error type report

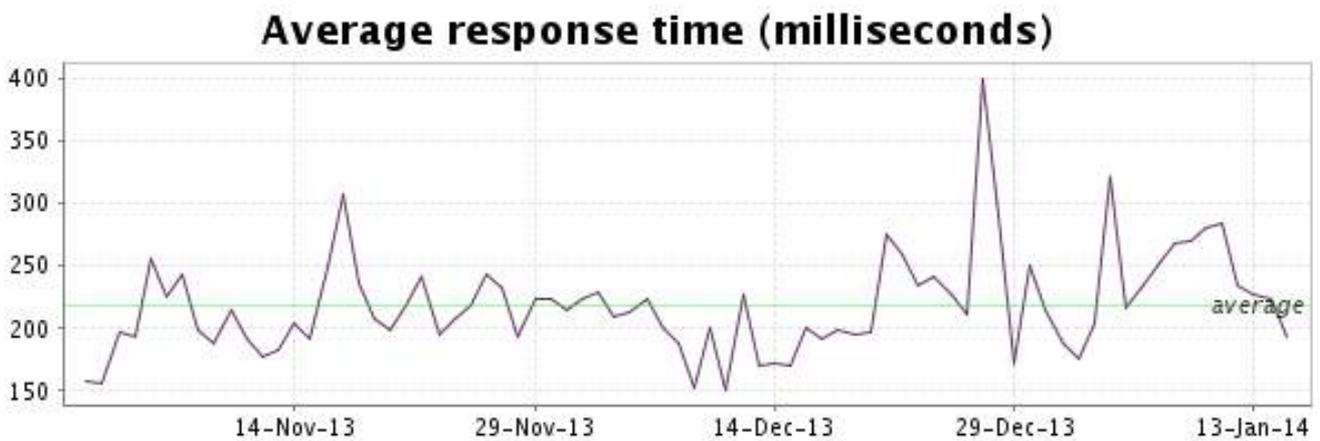

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

1.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

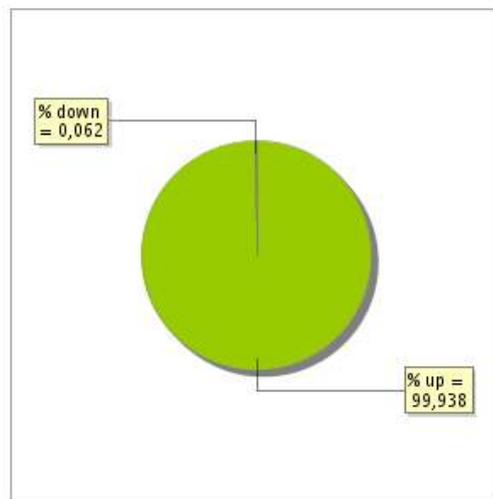

2.1 Descriptive summary

protocol	HTTP
URL or host	http://www.azur.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

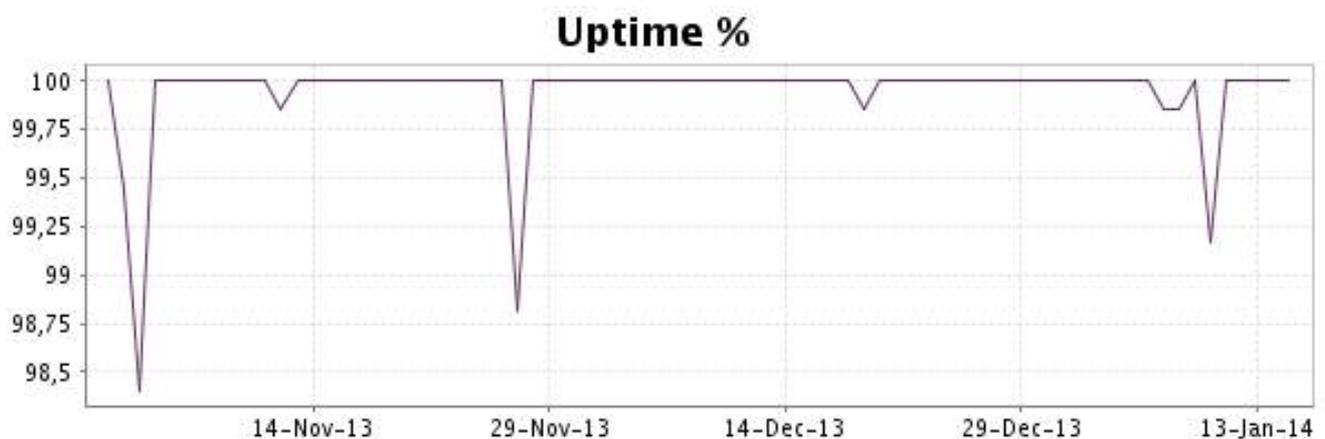

2.2 Performance report

% up	99.938%
% down	0.062%
time on error	1 hour 8 minutes
time on success	75 days 22 hours 52 minutes
average response time	0.552 second
lowest response time	0.094 second
highest response time	33.497 seconds
number of checks	109282
number of successes	109214
number of errors	68

2.3 Availability report

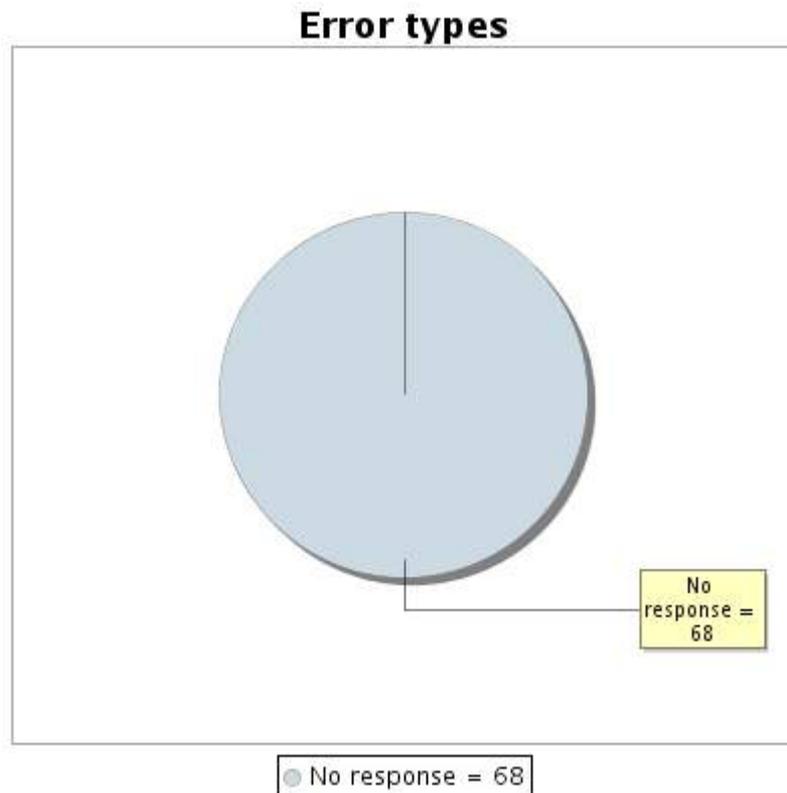

This graph summarizes the percentage of uptime for this application over the current period.

2.4 Error type report

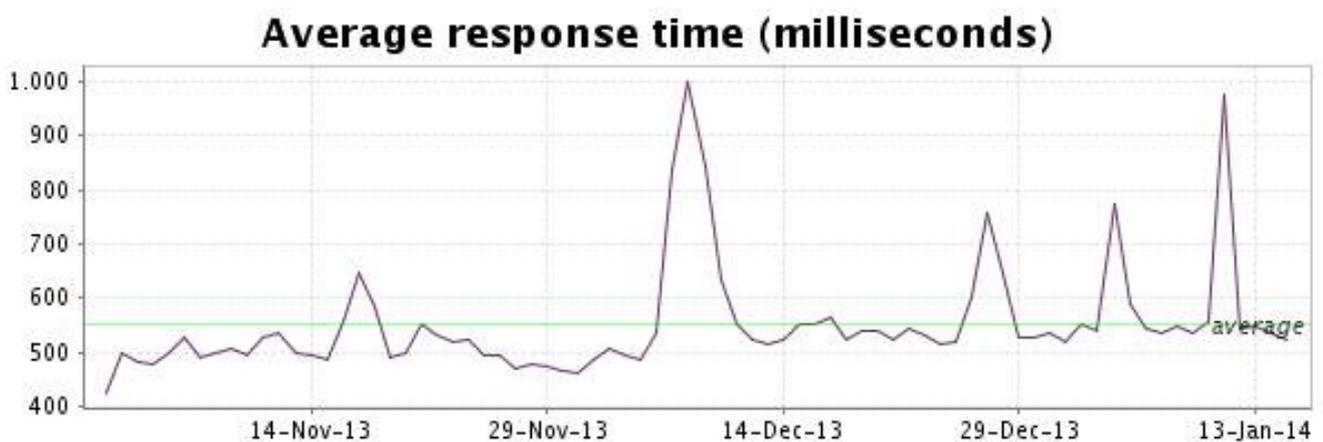

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

2.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

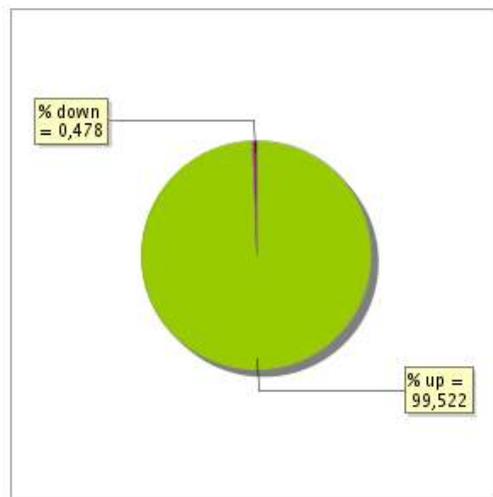

3.1 Descriptive summary

protocol	HTTP
URL or host	http://www.belgiqueoisirs.be/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

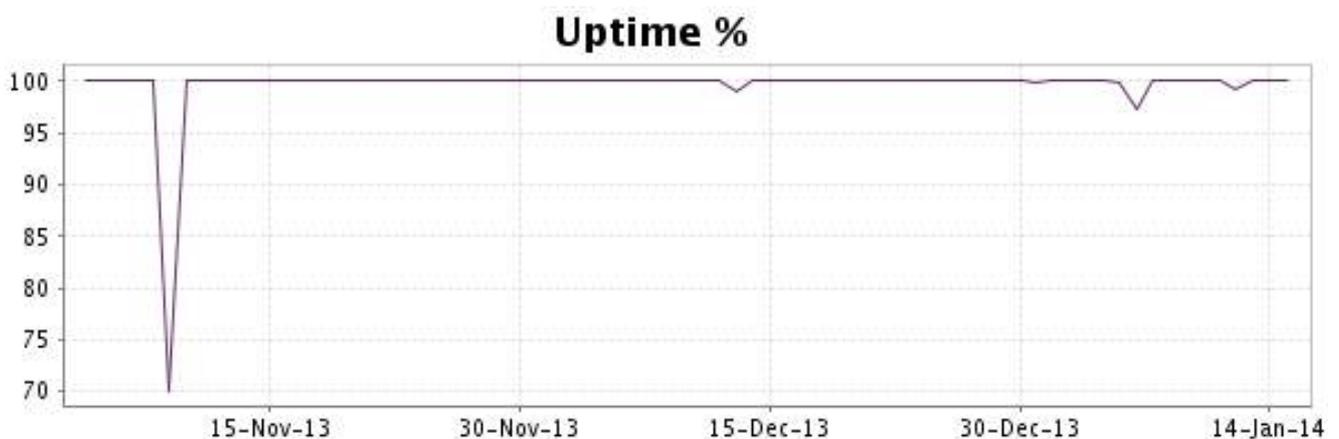

3.2 Performance report

% up	99.522%
% down	0.478%
time on error	8 hours 18 minutes
time on success	72 days 1 hour 11 minutes 33 seconds
average response time	0.587 second
lowest response time	0.041 second
highest response time	37.330 seconds
number of checks	104071
number of successes	103576
number of errors	495

3.3 Availability report

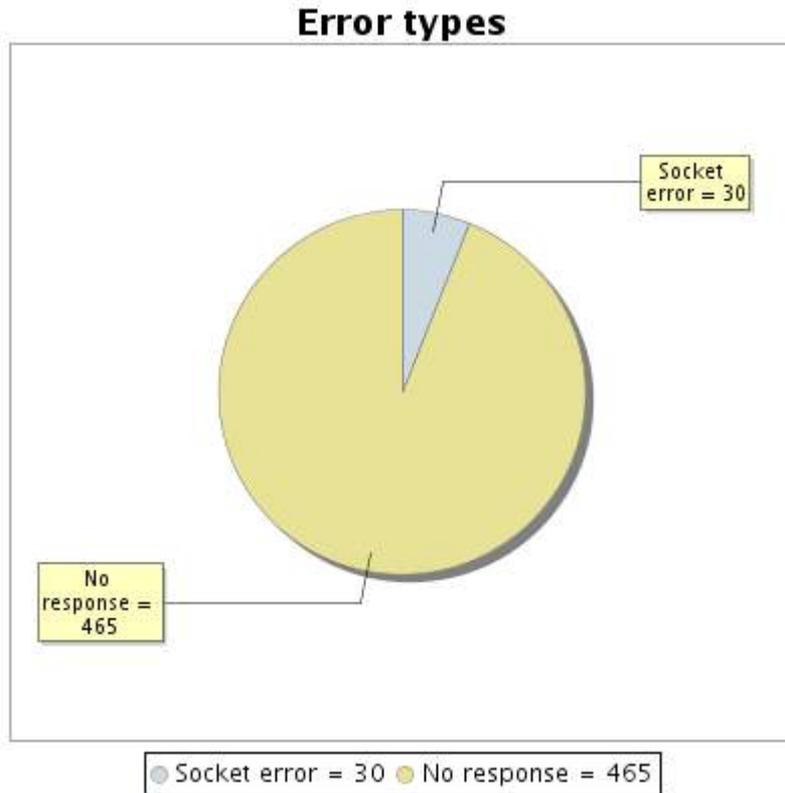

This graph summarizes the percentage of uptime for this application over the current period.

3.4 Error type report

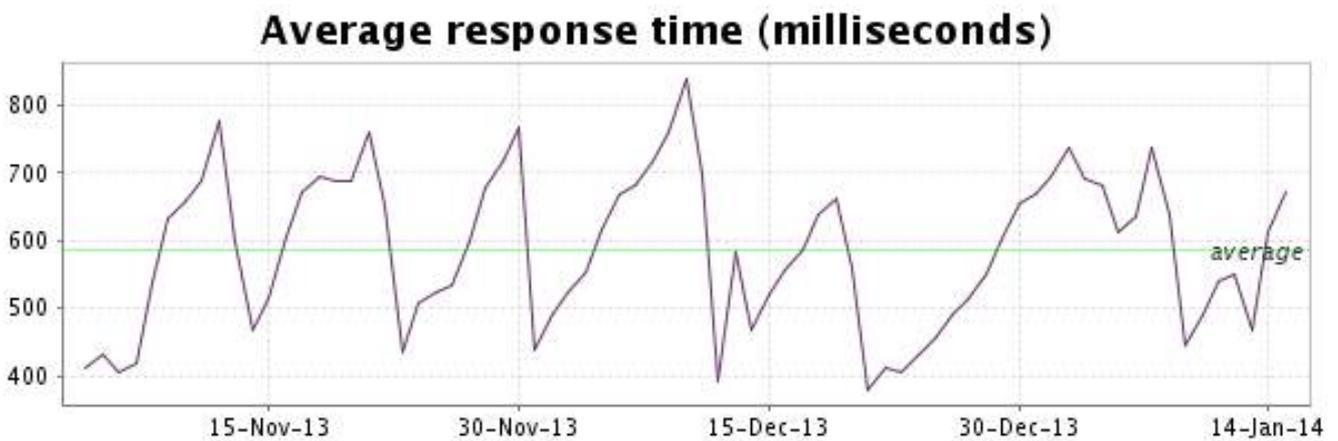

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

3.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

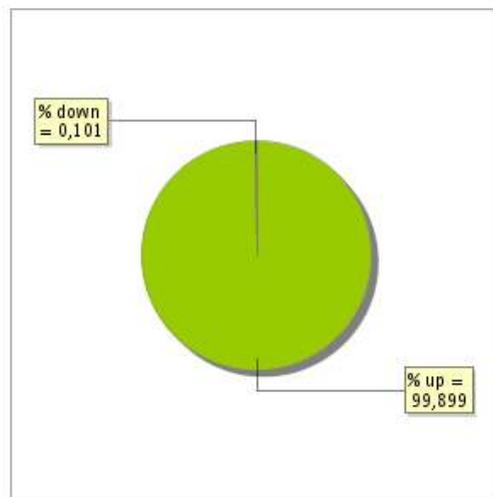

4.1 Descriptive summary

protocol	HTTP
URL or host	http://www.bivolino.com
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

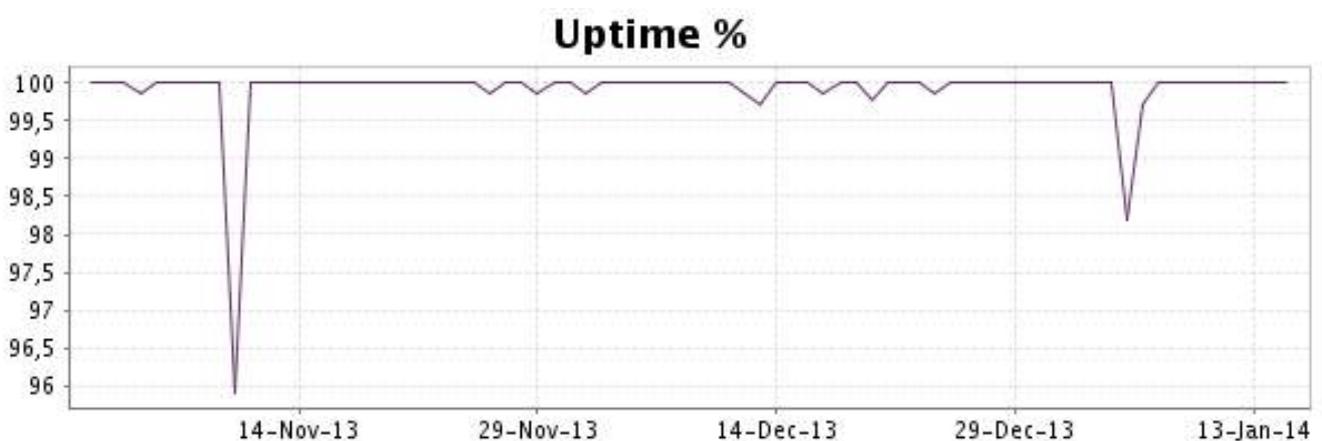

4.2 Performance report

% up	99.899%
% down	0.101%
time on error	1 hour 50 minutes
time on success	75 days 22 hours 10 minutes
average response time	0.190 second
lowest response time	0.008 second
highest response time	59.259 seconds
number of checks	109232
number of successes	109122
number of errors	110

4.3 Availability report

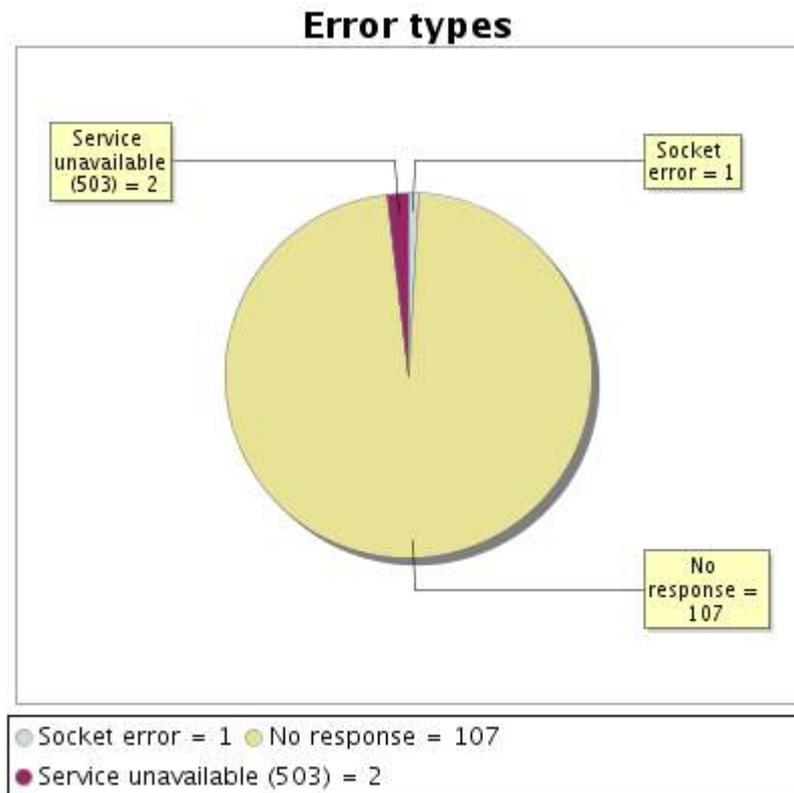

This graph summarizes the percentage of uptime for this application over the current period.

4.4 Error type report

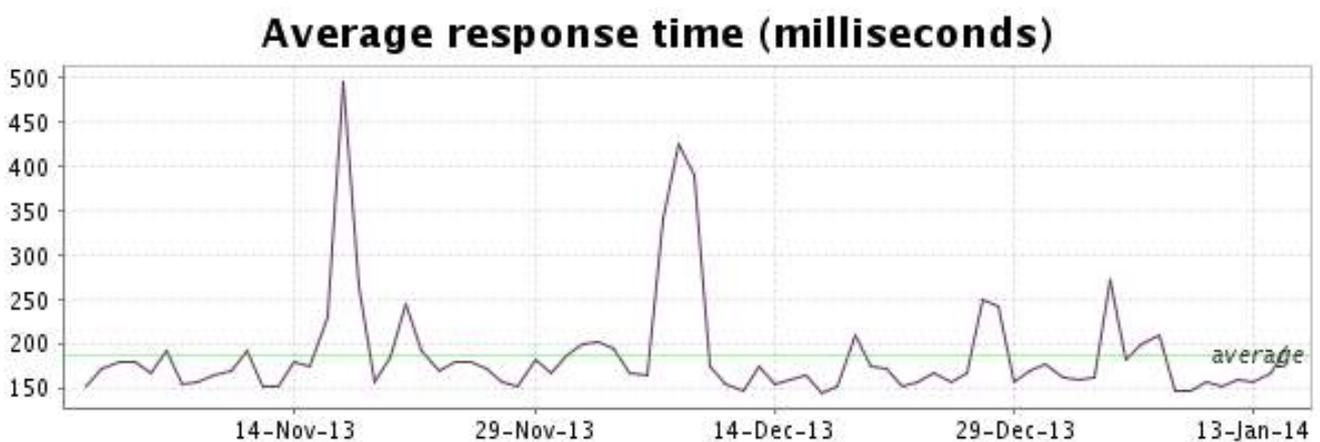

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

4.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

5.1 Descriptive summary

protocol HTTP

URL or host <http://www.bongo.be>

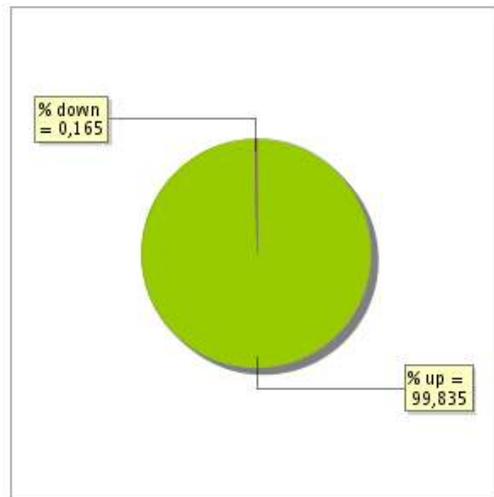

frequency 1 min.

active yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

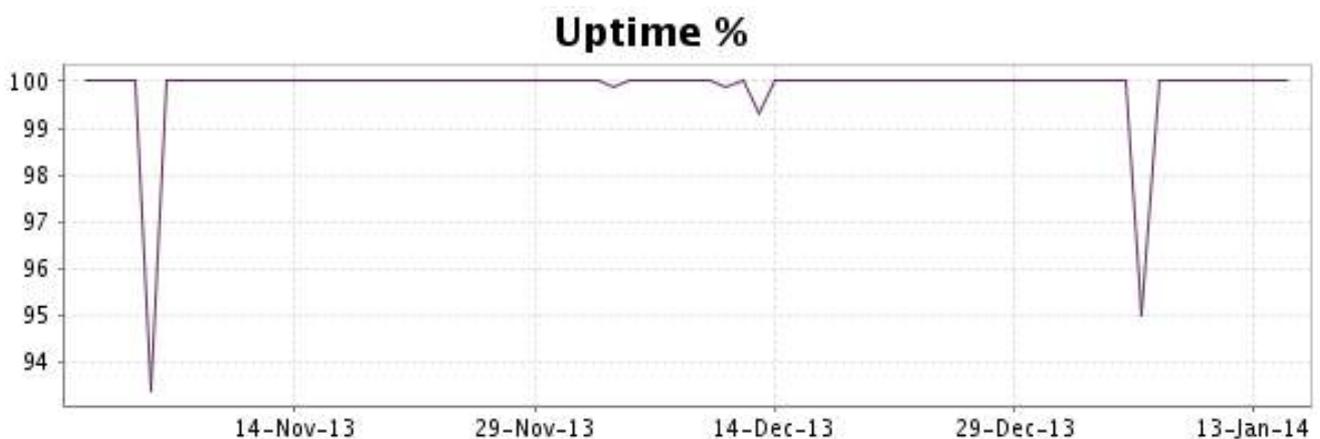

5.2 Performance report

% up	99.835%
% down	0.165%
time on error	3 hours 1 minute
time on success	75 days 20 hours 59 minutes
average response time	0.304 second
lowest response time	0.065 second
highest response time	29.662 seconds
number of checks	109227
number of successes	109047
number of errors	180

5.3 Availability report

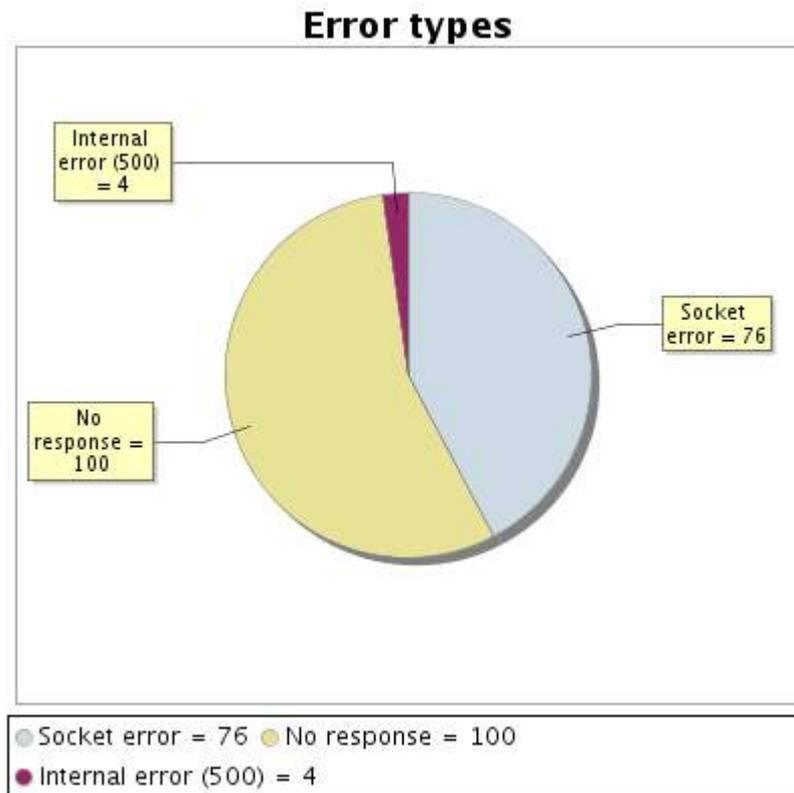

This graph summarizes the percentage of uptime for this application over the current period.

5.4 Error type report

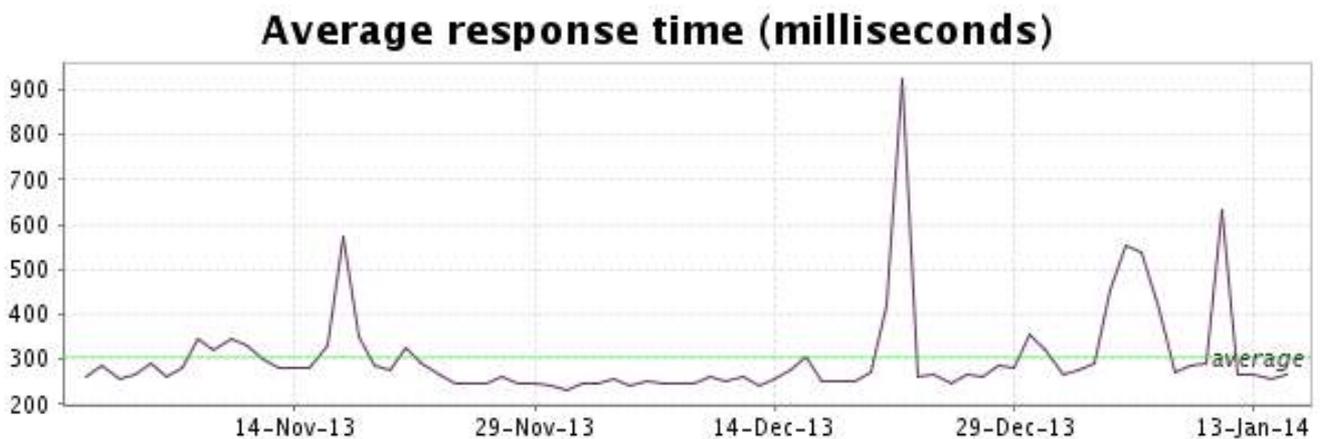

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

5.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

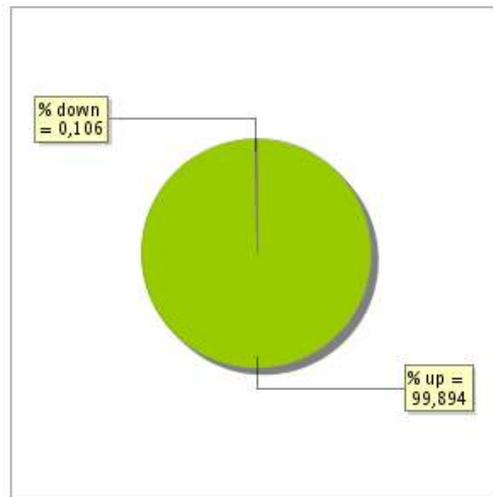

6.1 Descriptive summary

protocol	HTTP
URL or host	http://www.brusselsairlines.com/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

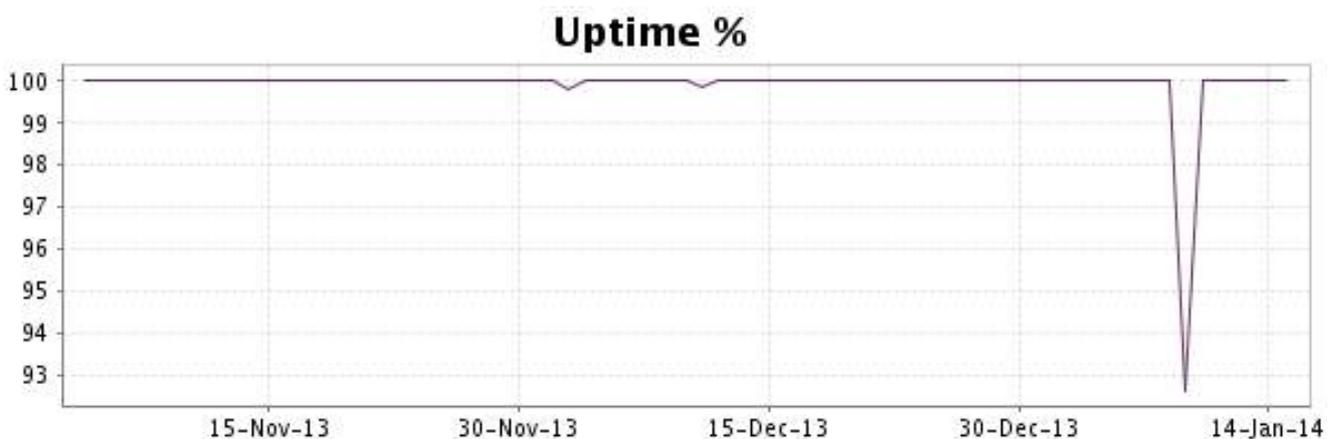

6.2 Performance report

% up	99.894%
% down	0.106%
time on error	1 hour 51 minutes
time on success	72 days 7 hours 36 minutes 58 seconds
average response time	0.344 second
lowest response time	0.032 second
highest response time	58.476 seconds
number of checks	104101
number of successes	103990
number of errors	111

6.3 Availability report

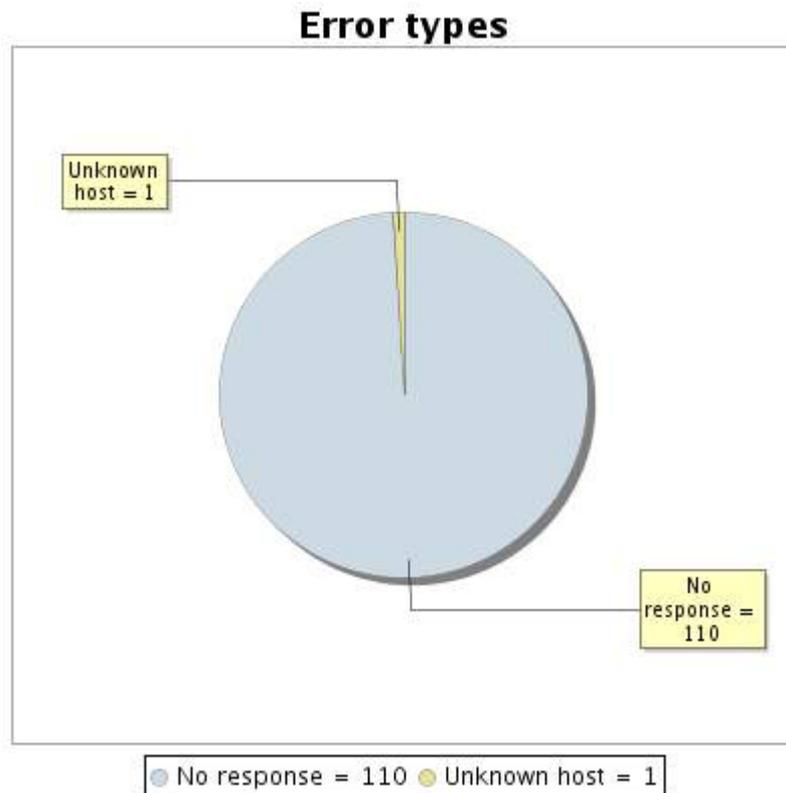

This graph summarizes the percentage of uptime for this application over the current period.

6.4 Error type report

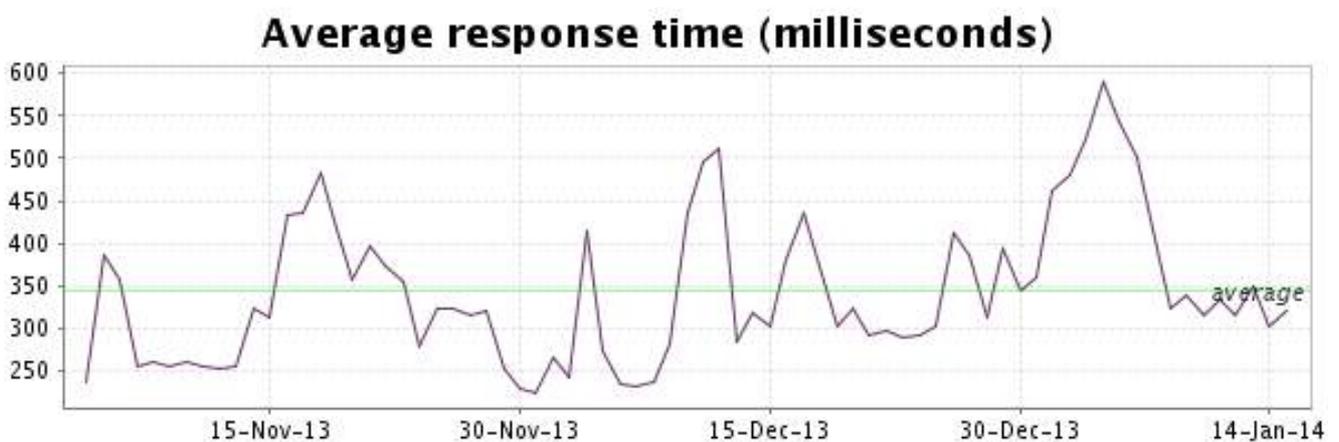

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

6.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

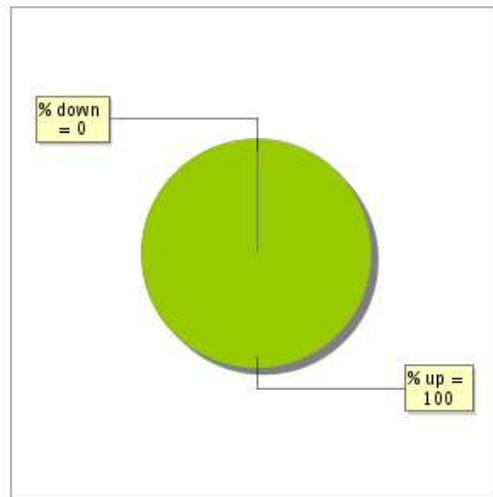

7.1 Descriptive summary

protocol	HTTP
URL or host	http://www.consoleshop.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

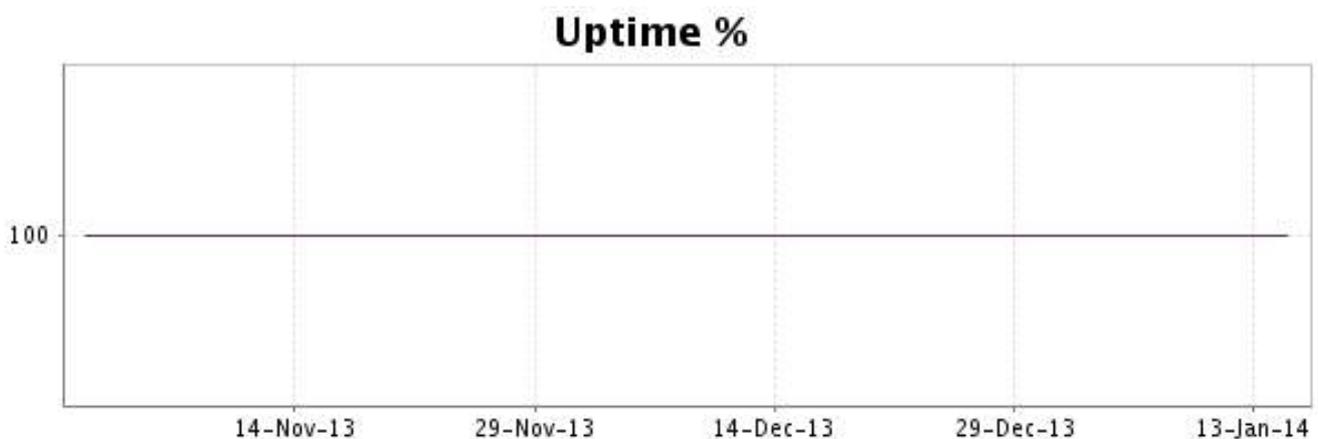

7.2 Performance report

% up	100%
% down	0%
time on error	0 second
time on success	76 days
average response time	0.782 second
lowest response time	0.125 second
highest response time	30.760 seconds
number of checks	109256
number of successes	109256
number of errors	0

7.3 Availability report

This graph summarizes the percentage of uptime for this application over the current period.

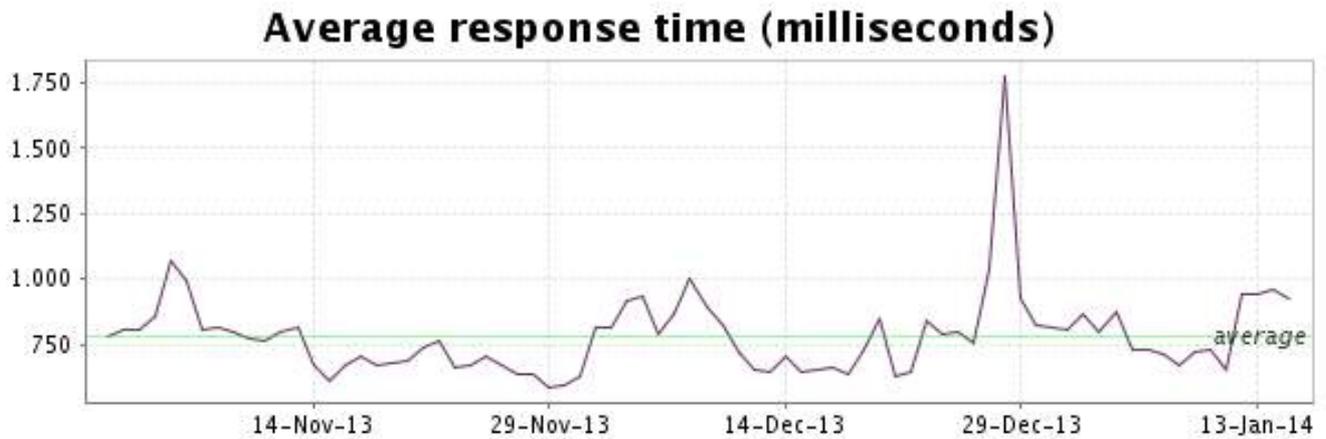

7.4 Error type report

There were no errors during the period. This type of graph is therefore not available.

7.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

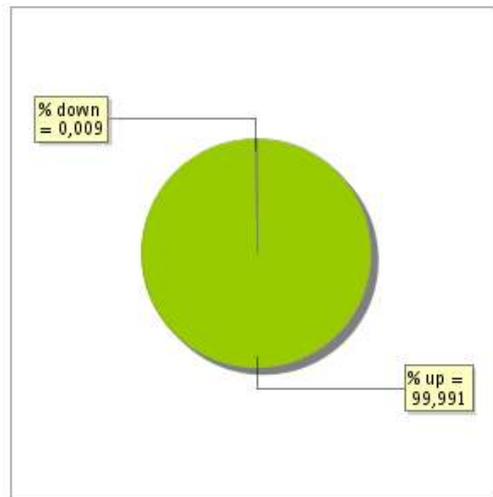

8.1 Descriptive summary

protocol	HTTP
URL or host	http://www.coolblue.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

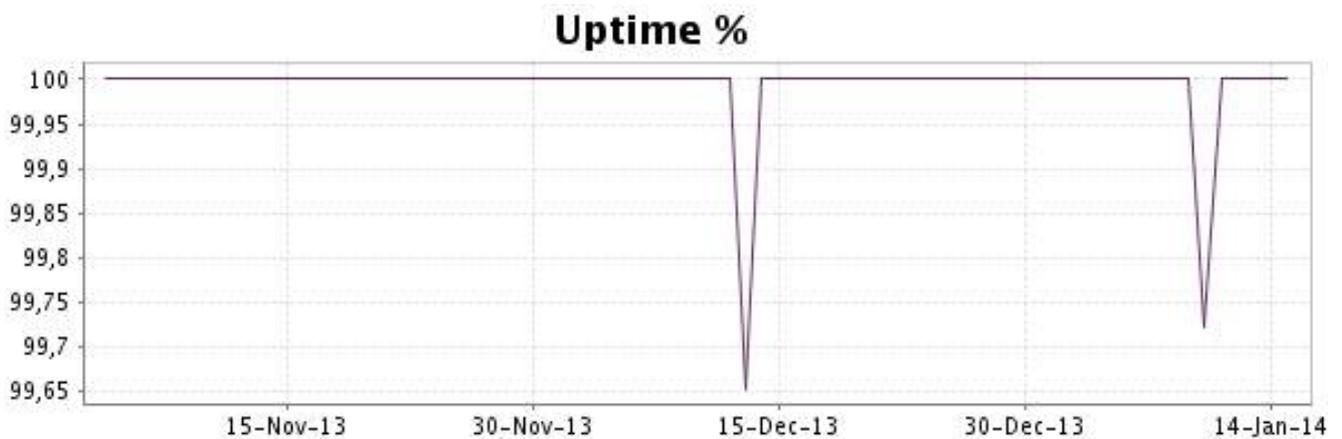

8.2 Performance report

% up	99.991%
% down	0.009%
time on error	9 minutes
time on success	72 days 9 hours 18 minutes 8 seconds
average response time	0.362 second
lowest response time	0.087 second
highest response time	29.629 seconds
number of checks	104079
number of successes	104071
number of errors	8

8.3 Availability report

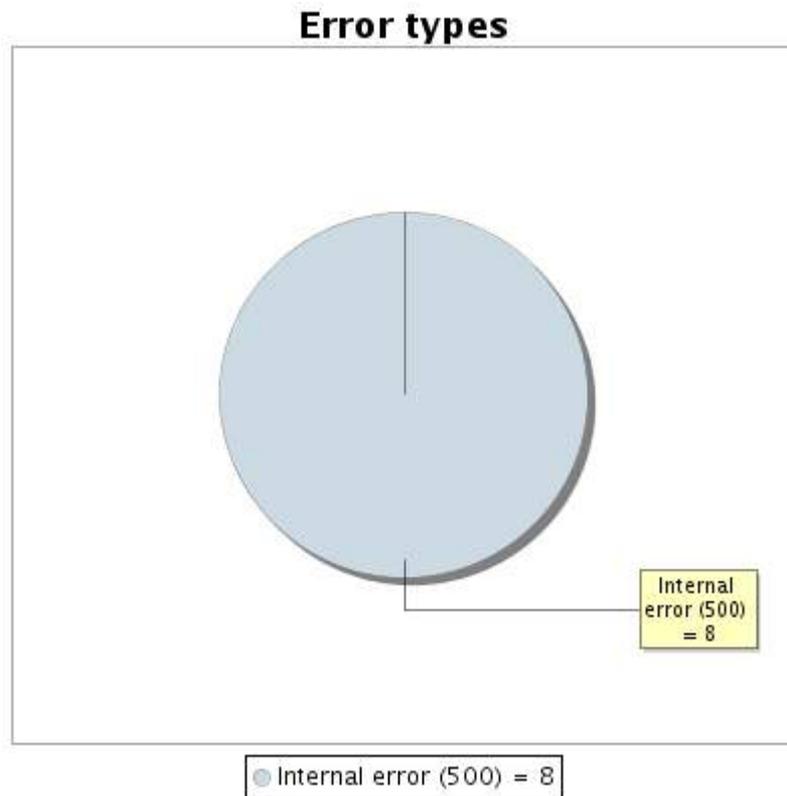

This graph summarizes the percentage of uptime for this application over the current period.

8.4 Error type report

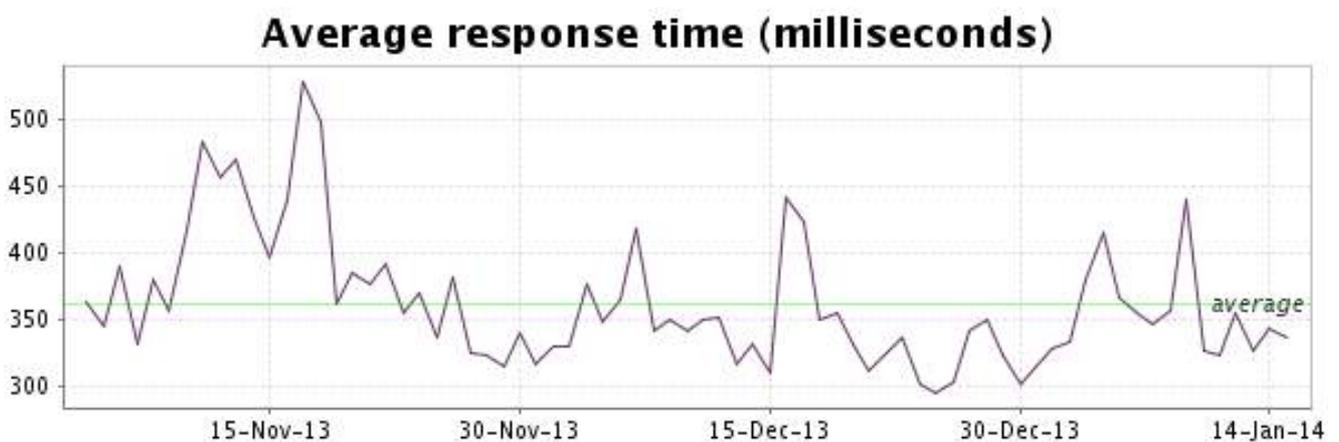

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

8.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

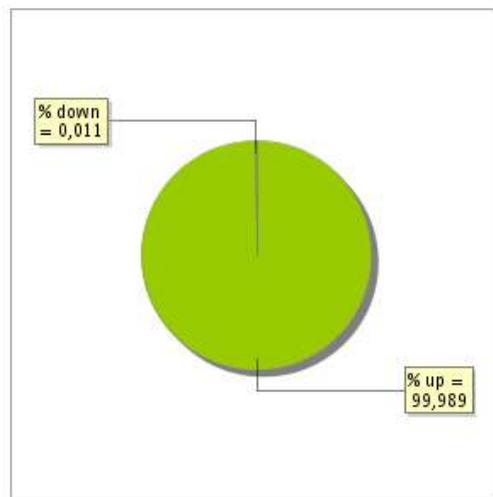

9.1 Descriptive summary

protocol	HTTP
URL or host	http://www.decathlon.be/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

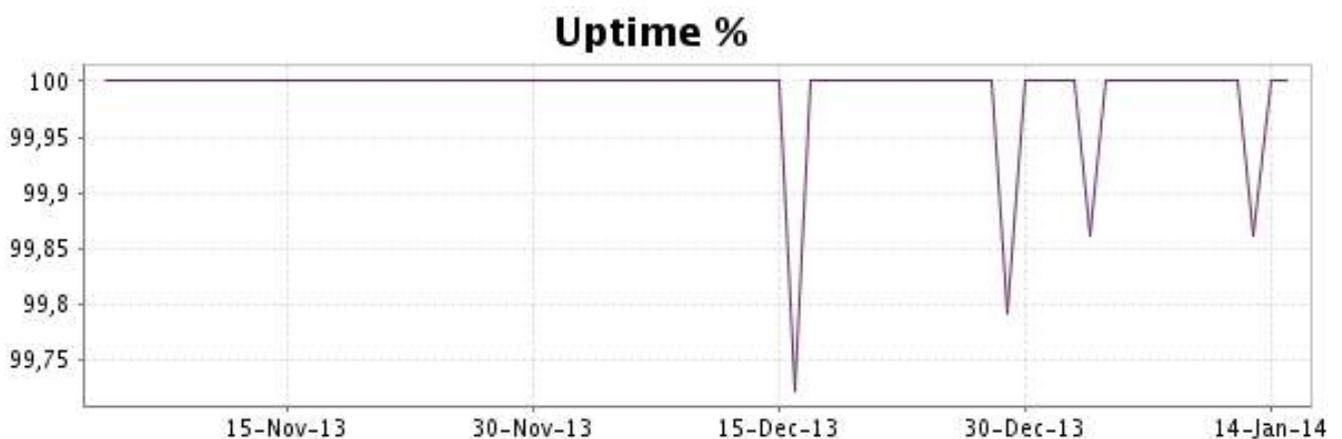

9.2 Performance report

% up	99.989%
% down	0.011%
time on error	11 minutes
time on success	72 days 9 hours 15 minutes 8 seconds
average response time	0.410 second
lowest response time	0.026 second
highest response time	52.425 seconds
number of checks	104079
number of successes	104069
number of errors	10

9.3 Availability report

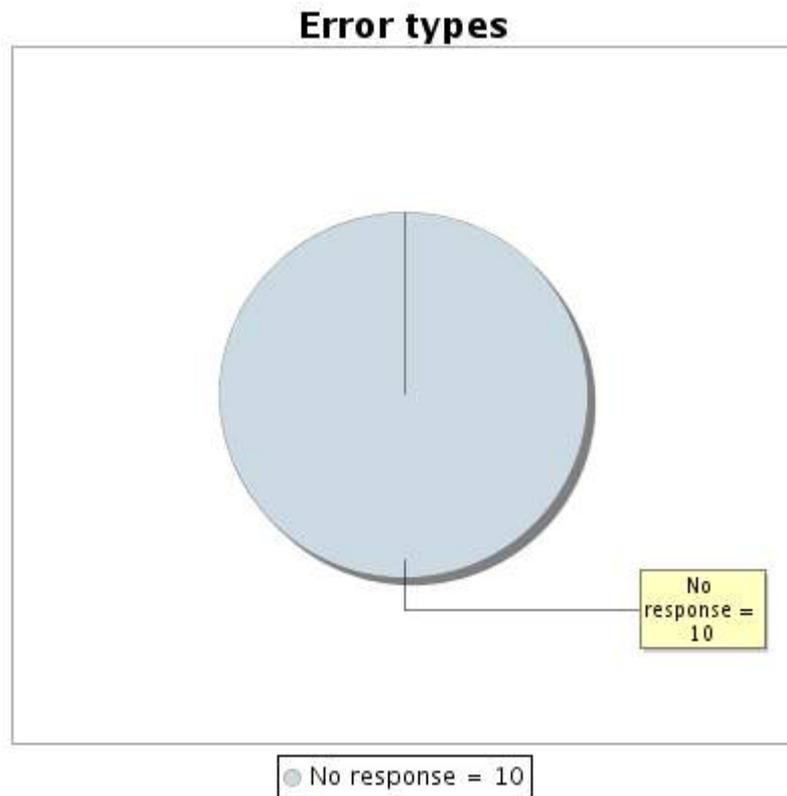

This graph summarizes the percentage of uptime for this application over the current period.

9.4 Error type report

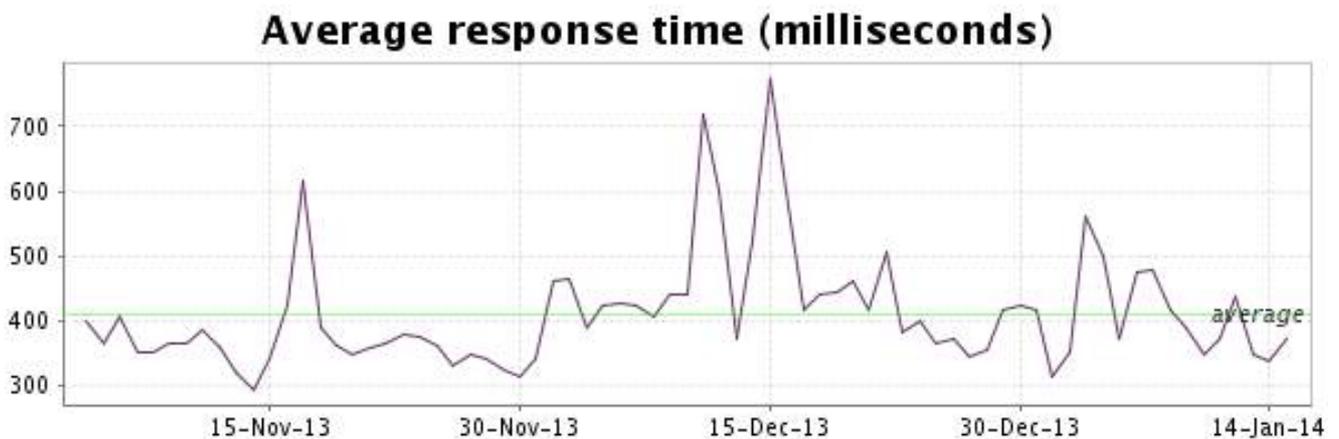

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

9.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

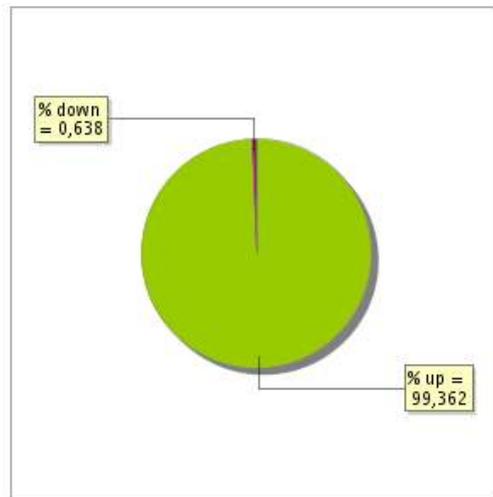

10.1 Descriptive summary

protocol	HTTP
URL or host	http://shop.delhaize.be/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

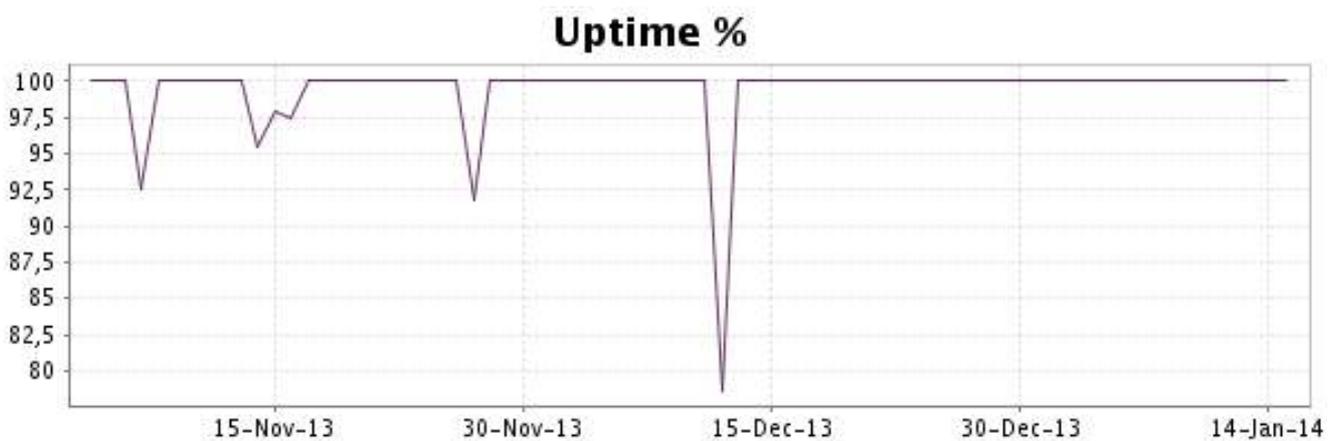

10.2 Performance report

% up	99.362%
% down	0.638%
time on error	11 hours 5 minutes
time on success	71 days 22 hours 20 minutes 8 seconds
average response time	0.288 second
lowest response time	0.066 second
highest response time	49.789 seconds
number of checks	104093
number of successes	103428
number of errors	665

10.3 Availability report

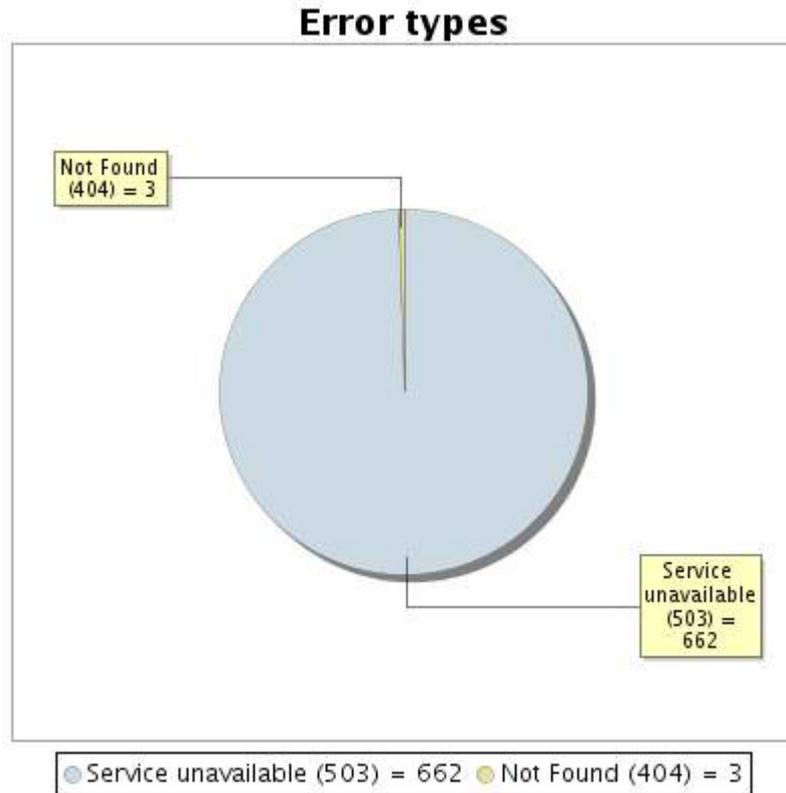

This graph summarizes the percentage of uptime for this application over the current period.

10.4 Error type report

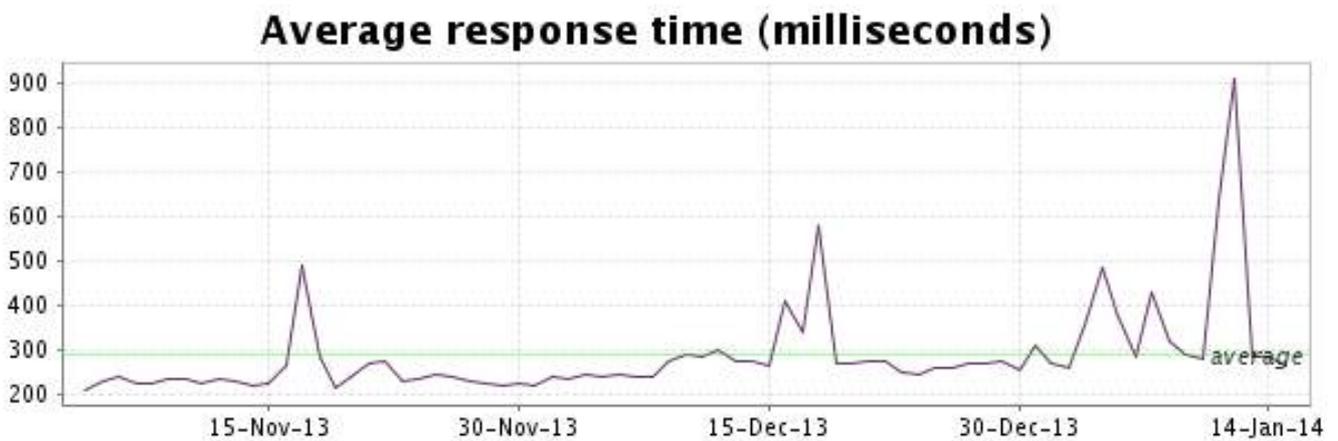

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

10.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

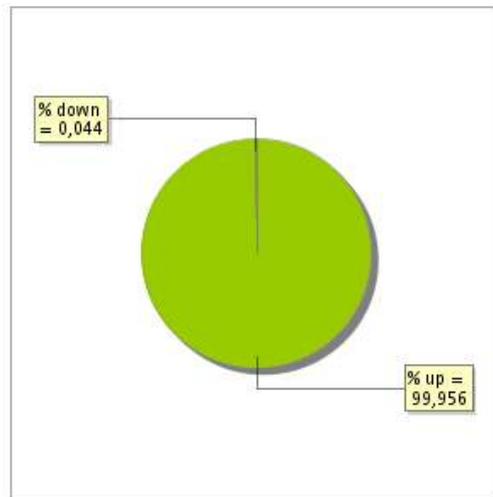

11.1 Descriptive summary

protocol	HTTP
URL or host	http://www.delhaizewineworld.com/
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

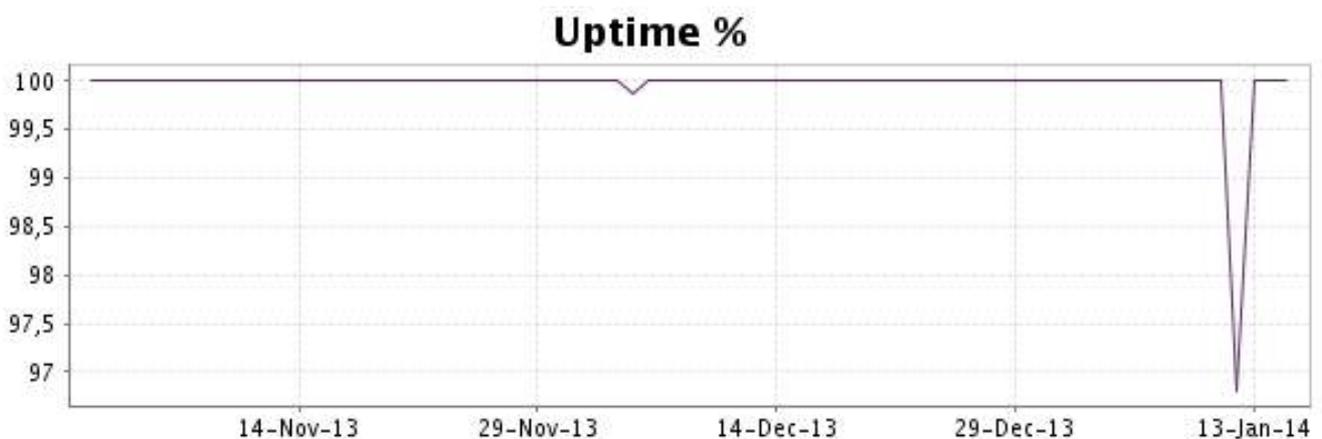

11.2 Performance report

% up	99.956%
% down	0.044%
time on error	48 minutes
time on success	75 days 23 hours 12 minutes
average response time	0.102 second
lowest response time	0.010 second
highest response time	26.945 seconds
number of checks	109316
number of successes	109268
number of errors	48

11.3 Availability report

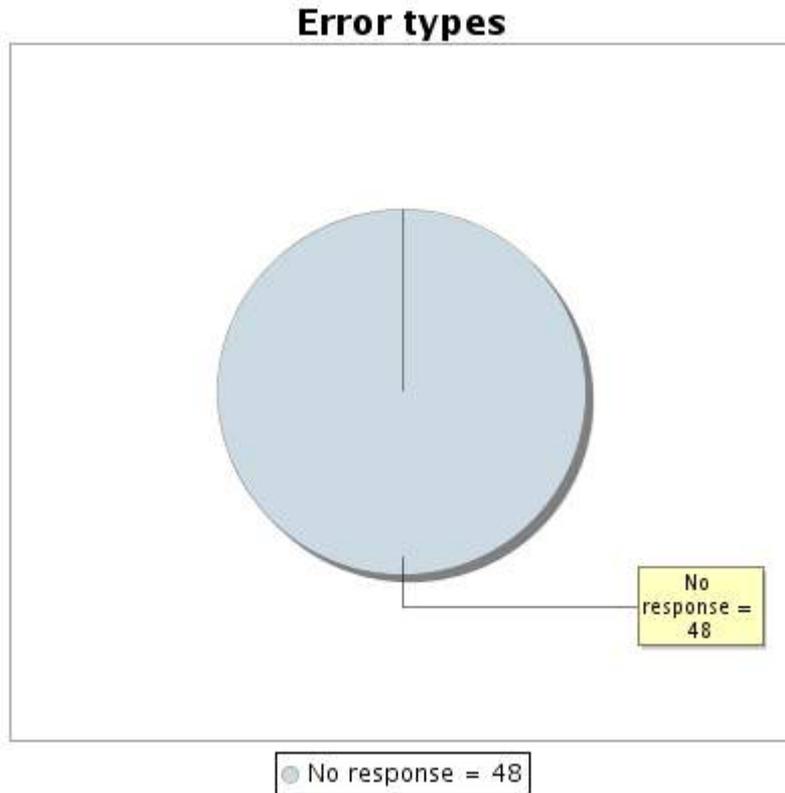

This graph summarizes the percentage of uptime for this application over the current period.

11.4 Error type report

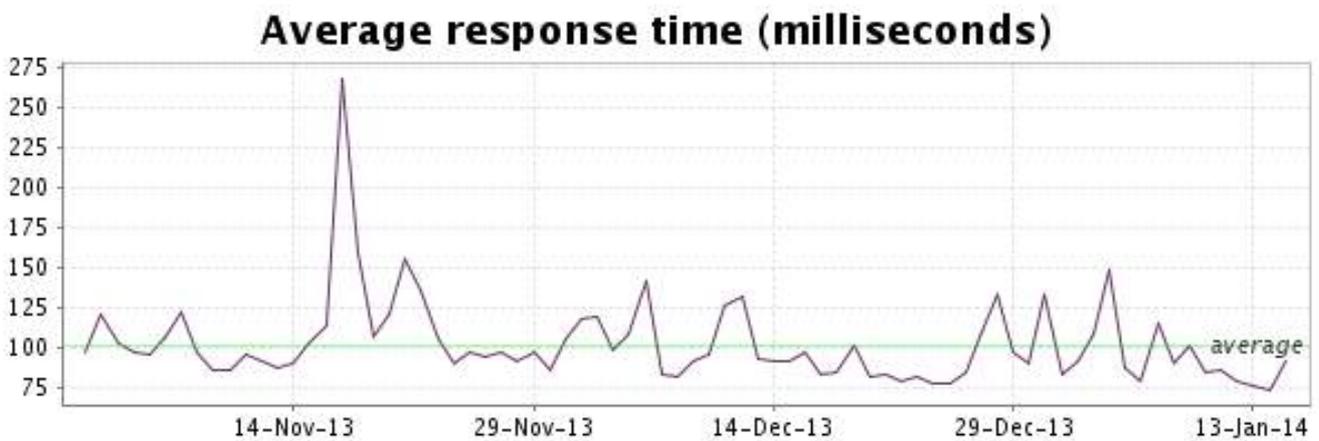

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

11.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

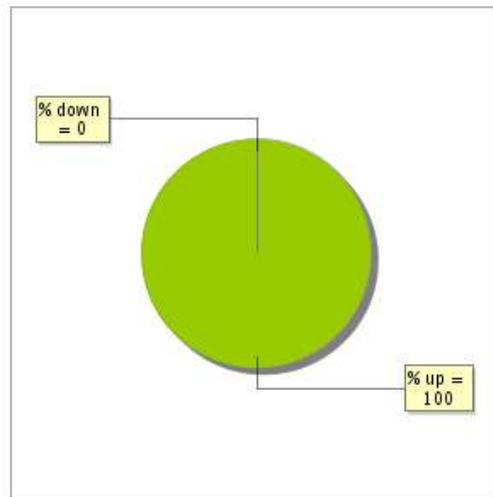

12.1 Descriptive summary

protocol	HTTP
URL or host	http://www.ebay.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

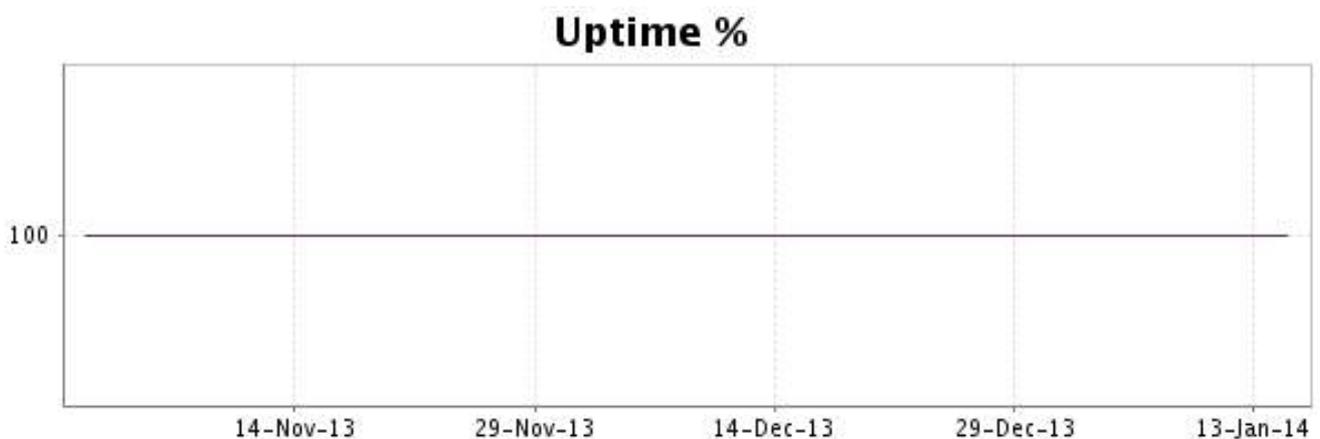

12.2 Performance report

% up	100%
% down	0%
time on error	0 second
time on success	76 days
average response time	0.567 second
lowest response time	0.142 second
highest response time	39.680 seconds
number of checks	109251
number of successes	109251
number of errors	0

12.3 Availability report

This graph summarizes the percentage of uptime for this application over the current period.

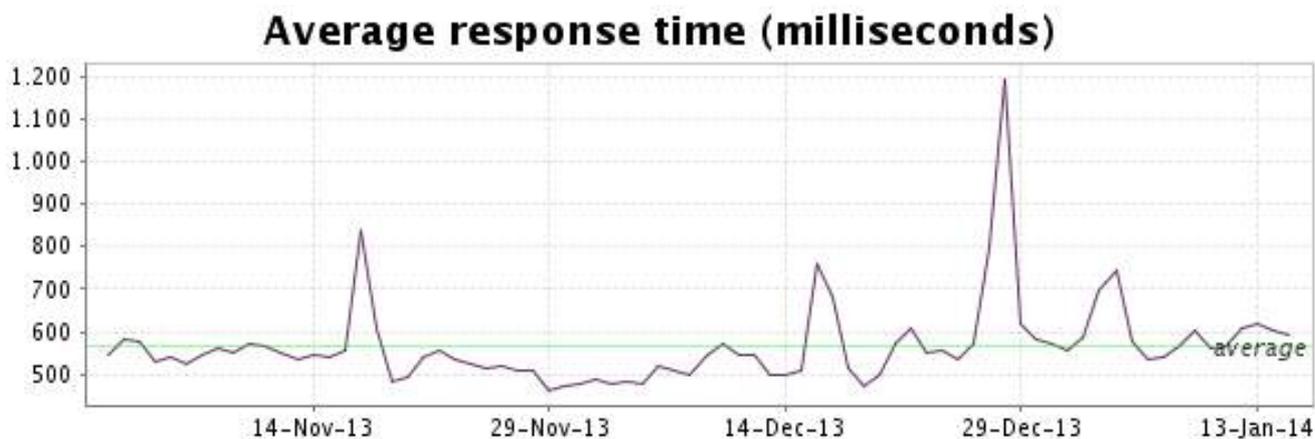

12.4 Error type report

There were no errors during the period. This type of graph is therefore not available.

12.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

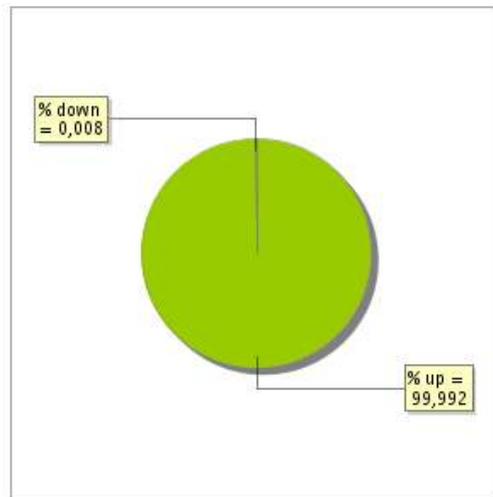

13.1 Descriptive summary

protocol	HTTP
URL or host	http://www.fnac.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

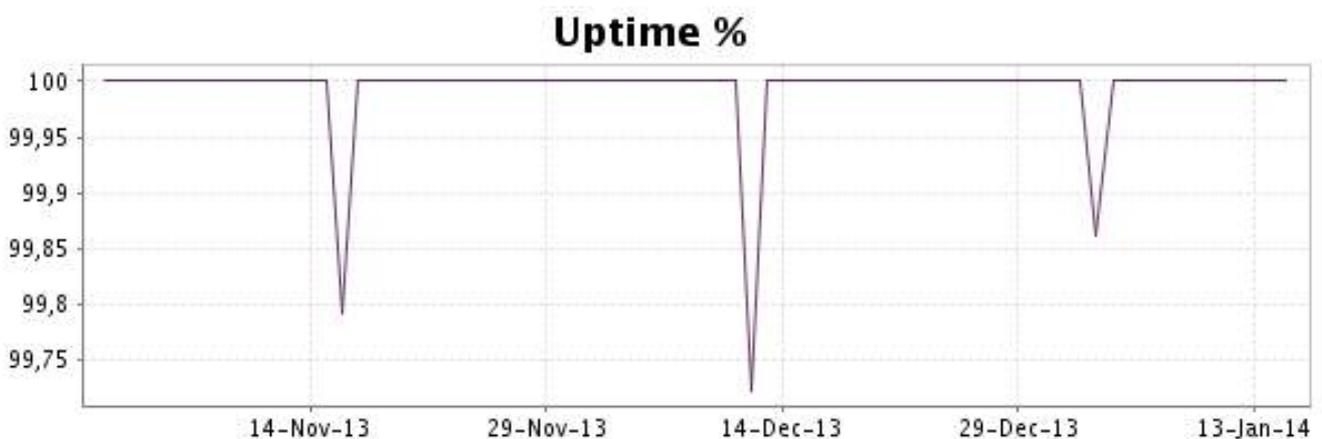

13.2 Performance report

% up	99.992%
% down	0.008%
time on error	9 minutes
time on success	75 days 23 hours 51 minutes
average response time	0.363 second
lowest response time	0.031 second
highest response time	32.479 seconds
number of checks	109288
number of successes	109279
number of errors	9

13.3 Availability report

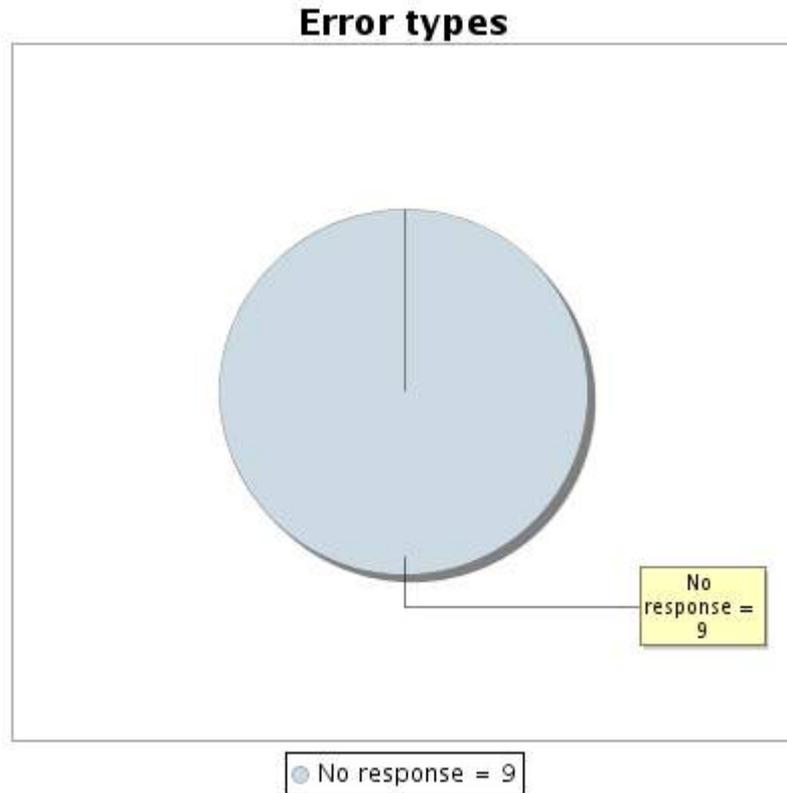

This graph summarizes the percentage of uptime for this application over the current period.

13.4 Error type report

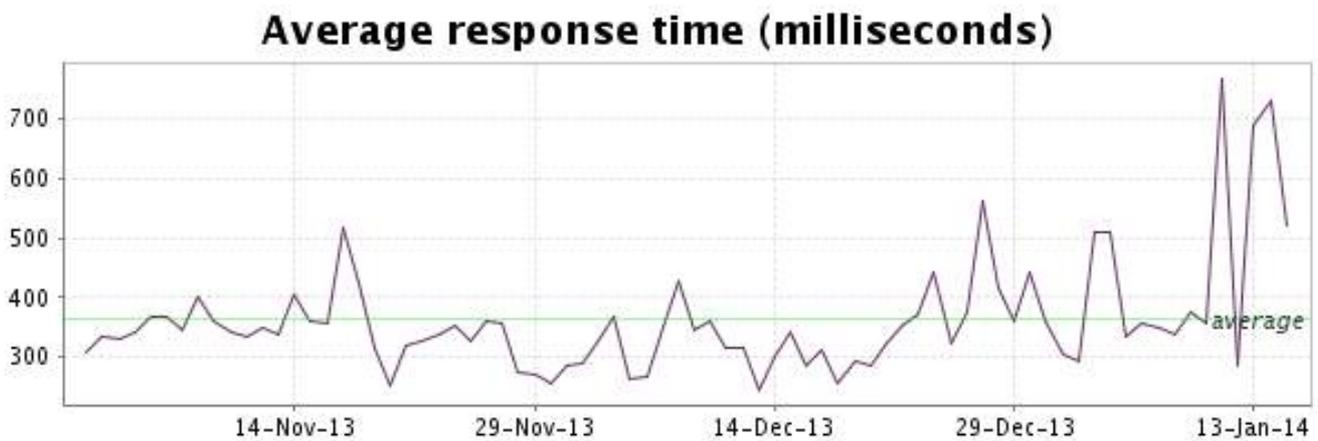

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

13.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

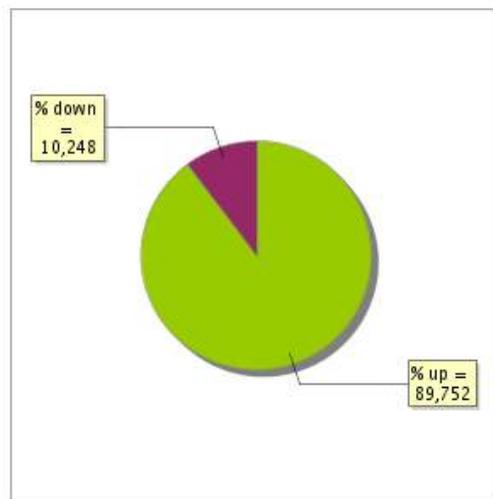

14.1 Descriptive summary

protocol	HTTP
URL or host	http://www.freerecordshop.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

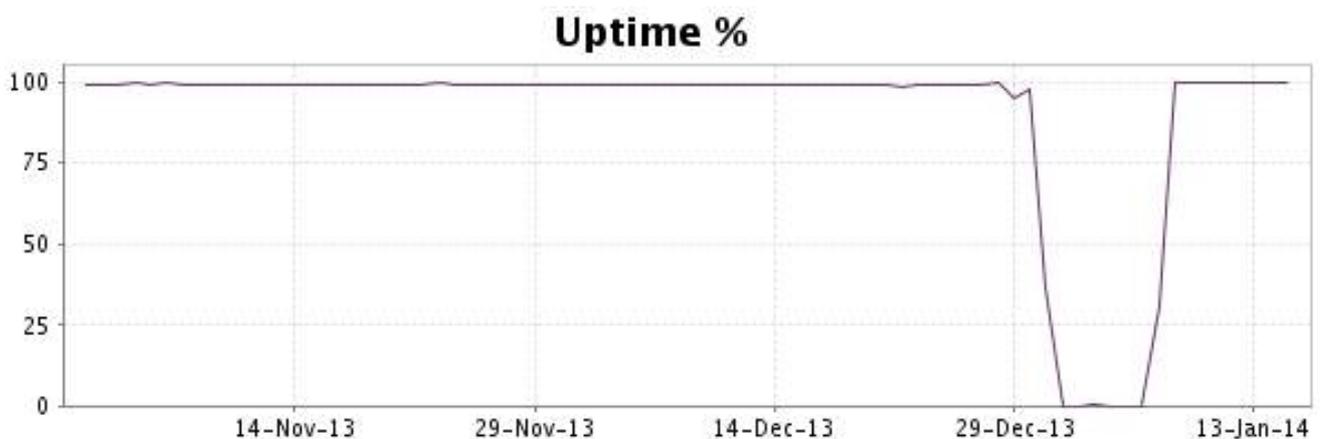

14.2 Performance report

% up	89.752%
% down	10.248%
time on error	7 days 18 hours 55 minutes 16 seconds
time on success	68 days 5 hours 4 minutes 44 seconds
average response time	0.740 second
lowest response time	0.046 second
highest response time	30.605 seconds
number of checks	108947
number of successes	97784
number of errors	11163

14.3 Availability report

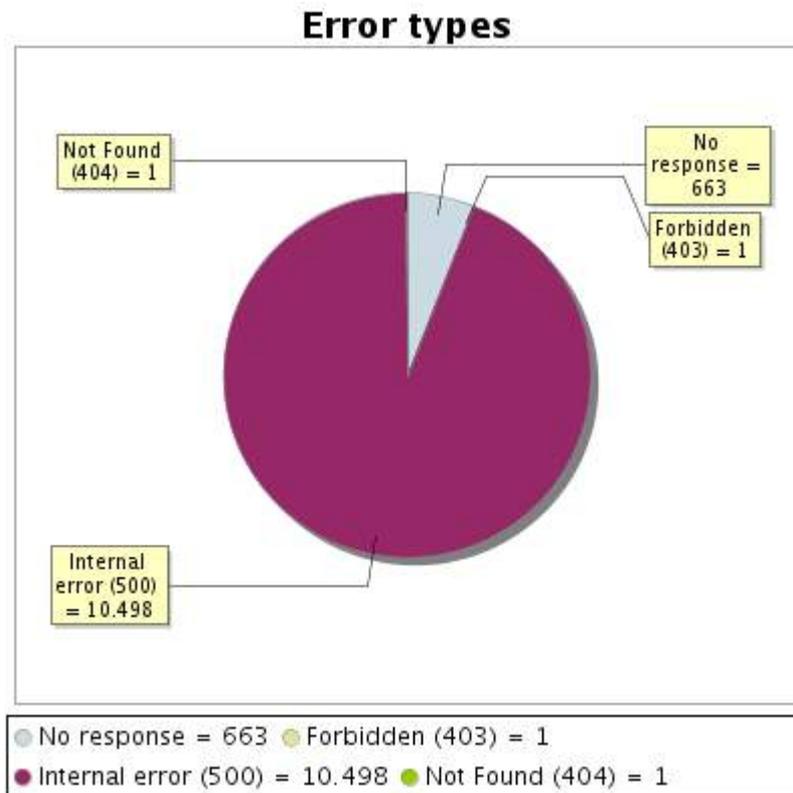

This graph summarizes the percentage of uptime for this application over the current period.

14.4 Error type report

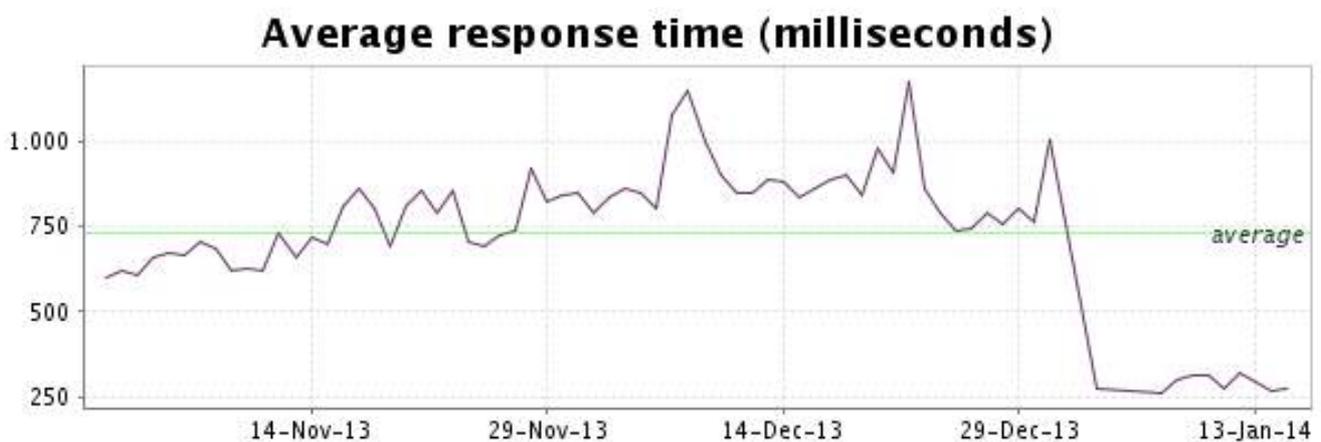

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

14.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

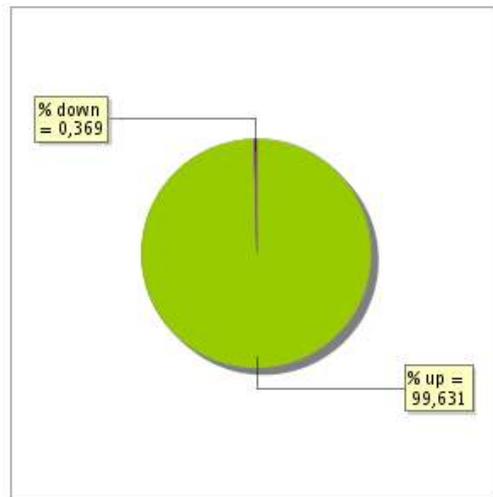

15.1 Descriptive summary

protocol	HTTP
URL or host	http://www.gift.be
frequency	1 min.
active	yes

This information comes from the application parameters you defined in the I.V. manager, you can always modify it (login > applications > edit)

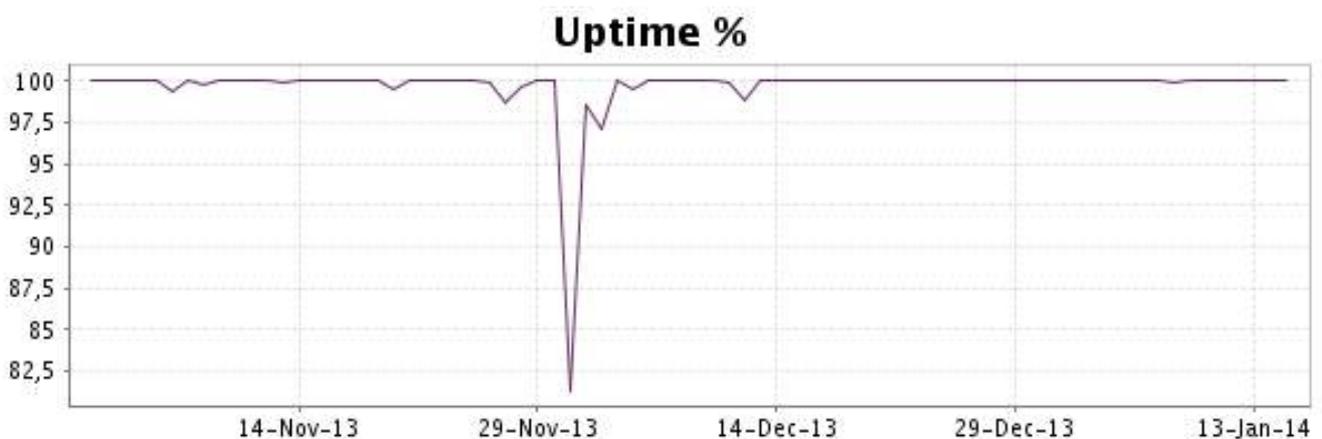

15.2 Performance report

% up	99.631%
% down	0.369%
time on error	6 hours 44 minutes
time on success	75 days 17 hours 16 minutes
average response time	1.275 second
lowest response time	0.649 second
highest response time	34.231 seconds
number of checks	109194
number of successes	108803
number of errors	391

15.3 Availability report

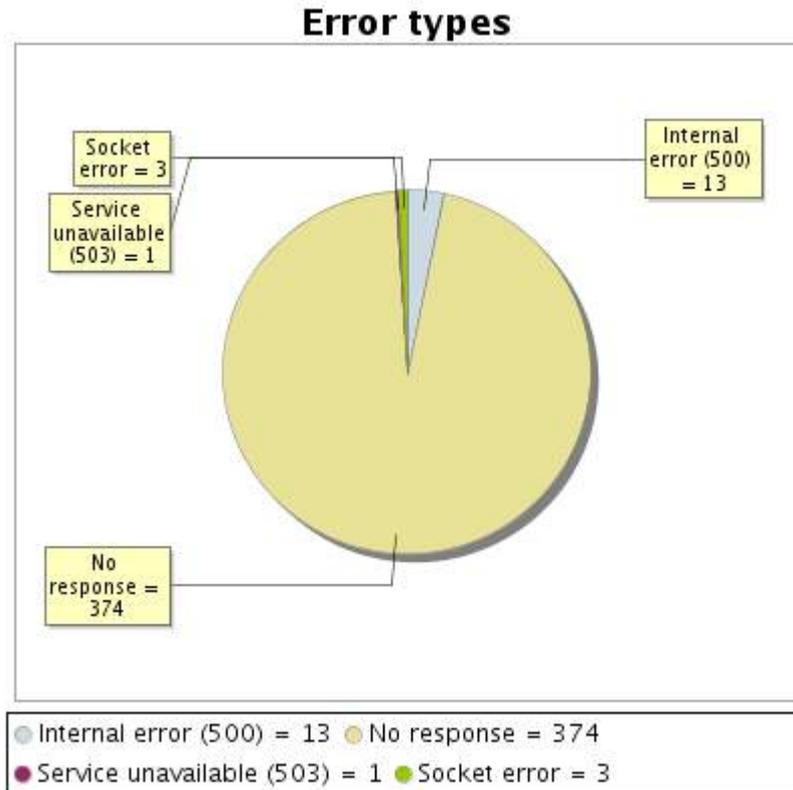

This graph summarizes the percentage of uptime for this application over the current period.

15.4 Error type report

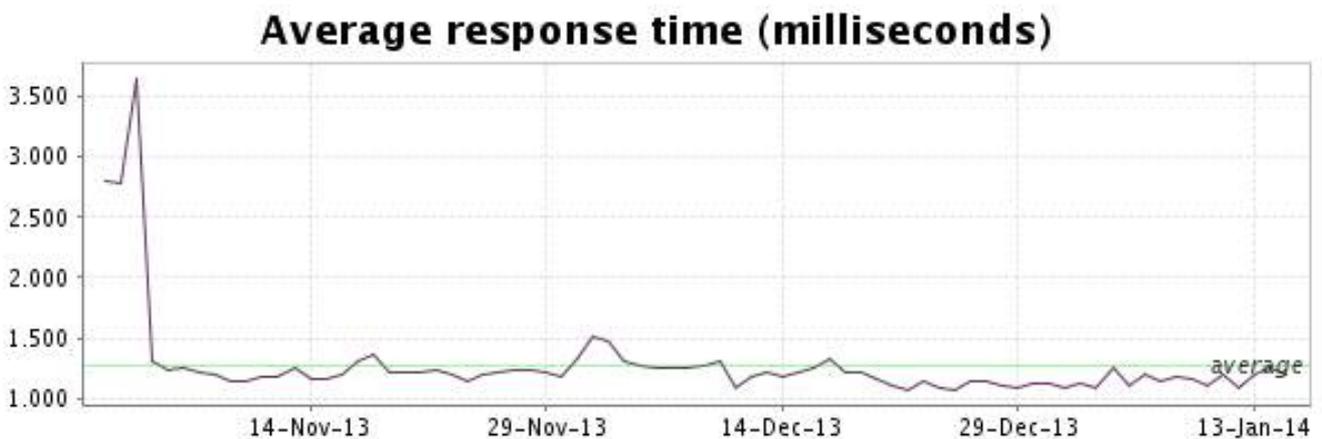

This graph summarizes the error repartition found during the period.

For all error type, a description can be found in the I.V. manager at the following url: <http://www.internetvista.com/en/result-list-internet-monitoring.htm>

15.5 Response time report

This graph shows the daily average response time in milliseconds for each day. The graphic also shows the average response time for the period analysed.

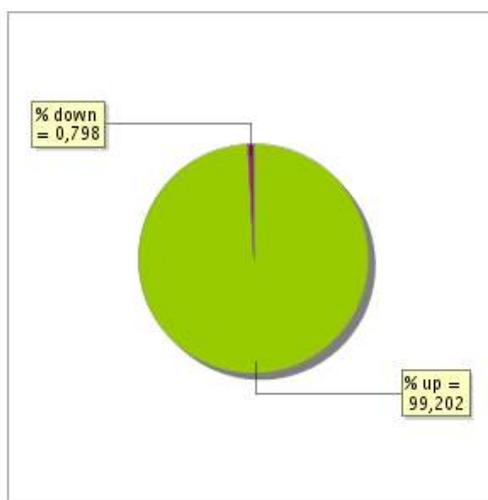

16.1 Descriptive summary

protocol	HTTP
URL or host	http://www.hcw.be
frequency	1 min.
active	yes
